

Defne Koz signed new flooring series from AGT

"The **AGT Design by Defne Koz** Flooring Series" created by the cooperation of AGT, which continues its path with the vision of the world brand and is the leading brand of the Wood and Forest Products sector, and Designer Defne Koz, shapes the inspiration received from nature with the creative power of design.

In the national and international market, furniture, decoration and construction sectors; with MDF, MF-MDF, panel, profile and flooring production, AGT, which operates in more than 70 countries on 5 continents, has put "The **AGT Design by Defne Koz**" flooring series, bearing Designer Defne Koz's signature, with two different collections, Bliss and Spark, into use.

"The **AGT Design by Defne Koz**" flooring series has begun with the inspiration of Designer Defne Koz's curiosity for the balance between human production and natural; instead of using natural wood patterns, it has come up with the beauty of nature and the creativity of man coming together.

Designer Defne Koz stating that she has brought together the best aspects of what is designed with natural; has combined warm colors, tapestry, organic patterns and natural features of wood, with a wide range of colors and the differentiating qualities of man-made in her collection.

The **AGT Design by Defne Koz** flooring series, which is formed by the richness and depth of the designed patterns, gives shape to the inspiration from nature with the creative power of design.

Parametric reflection of nature: BLISS

The Bliss Flooring Collection, which is the first of two collections, has a special patented lock system, 10 mm thickness, AC4 wear class and a 15-year product warranty and consists of 4 different colors. Designed with a soft and calm pattern similar to natural veins, the shape and density of the veins are shaped by parametric design. Bliss is a very attractive choice for designers, architects and interior designers who want a rich floor covering and appeal to a calm and peaceful mind, with a resemblance to the texture of the silk changing with the reflection of light...

Strong balance of organic and flat patterns: SPARK

Spark Flooring Collection, which draws attention with the same design through its upper surface texture, has a special patented lock system, 12 mm thickness, AC4 wear class and 15-year product warranty and consists of 4 different colors. With a rich pattern in which natural wood veins are designed with geometric lines; it is possible to mention a balance of organic and flat patterns in the product which has the one-to-one following surface texture. Spark is the perfect choice for an impressive floor covering in large spaces where architects want to apply a pattern and surface with a strong identity, or in common use areas such as the hotel lobby...
